

This listing of claims will replace all prior versions and listings of claims in the application:

Listing of Claims

1. (Currently Amended) An appliance comprising:

a domestic combined heat and power appliance including a prime mover to generate electrical power and heat output, a housing containing the prime mover;

and at least one bracket at each side of the housing ~~adapted to mount~~ structurally supporting the housing to a from a vertical wall, each bracket ~~being independent from the other and~~ comprising a main body which is ~~elongate~~ extends in a vertical direction when installed on the vertical wall and has a L-shape cross section as defined in a horizontal plane, each extremity of the L-shape cross section having an enlarged portion, a first of which extends continuously from a first leg of the main body and provides a spacer between the first leg of the main body and the housing, and a second of which extends continuously from a second leg of the main body and provides a spacer between the second leg of the main body and the wall.
2. (Original) An appliance according to claim 1, wherein a plurality of brackets are provided at each side of the housing.
3. (Previously Presented) An appliance according to claim 1 wherein the prime mover is a linear free piston Stirling engine.
4. (Canceled).
5. (Previously Presented) An appliance according to claim 1 wherein the housing is provided with at least one flexible inlet/outlet connection for fluid.
6. (Original) An appliance according to claim 5, wherein the flexible connection is provided by an oversize opening in the housing through which an inlet/outlet pipe extends, and a flexible seal between the hole and the pipe.

7. (Previously Presented) An appliance according to claim 5, wherein the inlet/outlet connection is provided with a flexible pipe section to absorb pressure pulses.

8. (Previously Presented) An appliance according to claim 6, wherein the inlet/outlet pipe is provided with a flexible pipe section to absorb pressure pulses.

9. (Previously Presented) An appliance according to claim 2 wherein the prime mover is a linear free piston Stirling engine.
